

WEB-BASED MONITORING AND EVALUATION SOFTWARE

13th Floor, Landmark Building, Argwings Kodhek Road, Box 1234-00515, Nairobi,
+254 727044818, info@projtrac.co.ke

Projtrac Systems Ltd

Projtrac Systems Limited is an IT company that builds capacity for both government and non-government organizations to manage their programs and projects efficiently and effectively. It specifically designs, develops and implements web-based planning, monitoring and evaluation systems.

Monitoring and Evaluation Software:

The software is:

- ❖ Web-based hence accessible from any geographical locations through internet
- ❖ Configurable and customizable according to users' needs
- ❖ Responsive to all devices (Laptops, Tablets and Mobile Phones)
- ❖ The system has ready API for easy integration with other existing systems as per client's needs.
- ❖ Highly secured
- ❖ User-friendly
- ❖ Developed using the latest technologies
- ❖ Developed in line with M&E best practices

The software manages the following:

- ❖ **Strategic Plan:** Strategic Objectives, Strategies, KPIs
- ❖ **Programme/Project Management:** Progress (%) and status (off/on track with colour codes), cost, risks and results
- ❖ **Indicators:** Output, Outcome (beneficiaries-direct&indirect) and impact indicators and disaggregations
- ❖ **M&E Framework:** Results chain, Indicators, Baseline, Target, Source of data, Data collection frequency, Responsible, and Reporting period.
- ❖ **Baseline Survey:** Facilitate collection of base values for output, outcome and impact indicators before implementation.
- ❖ **Monitoring:** Data collection checklists with configurable scoring method
- ❖ **Quality Control:** Checklist with predefined project standards/specifications
- ❖ **Issue/Risk Management:** Risk categories, Risk mitigation, issue log, issue analysis, issues resolution/escalation
- ❖ **Evaluation:** Process, Rapid, Outcome evaluation and Impact Assessment.
- ❖ **Personnel:** project team management (Roles and responsibilities)
- ❖ **Finance:** Programme/project funding management (Payment request, approval and disbursement).
- ❖ **Procurement:** Project procurement details including consultants/contractors information.

- ❖ **Development Partners:** Donors and other implementing partners details
- ❖ **File Management (MoV):** Allows attachment of documents as means of verification.
- ❖ **GIS:** shows geographical location of projects with clickable pins for more information
- ❖ **Reports:** Generates scheduled and adhoc reports as per the users' templates
- ❖ **Dashboard:** Visualizes key metrics of programmes/projects using charts and tables

Scope of the system

- ❖ **Planning:** Key Result Areas, Strategic Objectives, programmes/projects, activity scheduling and resourcing, expected results, disaggregated indicators and risks/assumptions.
- ❖ **Implementation:** Monitoring/Tracking of the implementation of projects to ensure they proceed as planned.
- ❖ **Post-Implementation:** Evaluation of projects to find out whether they realised intended results (outcomes)
- ❖ **Reporting:** Generation of various reports as per user needs

1. Planning

The system accommodates strategic plans with:

- ❖ Key Results Areas,
- ❖ Strategic Objectives,
- ❖ Strategies,
- ❖ Programmes and
- ❖ Projects with clear implementation matrices.

The screenshot shows a web application interface for strategic planning. On the left is a sidebar menu with options: Dashboards, Strategic Plan, Strategic Plans, Strategic Plan Projects, Annual Plans (ADPs), Programs, Projects, Monitoring, Inspection, Evaluation, Indicators, and Issues/Risk Register. The main content area has a top navigation bar with tabs: Menu, Strategic Plan Details, Key Results Area, Strategic Objectives, Strategic Workplan & Budget, and Strategic Plan Implementation Report. The 'Strategic Plan Framework' section contains a table with the following data:

Plan	Vision	Mission	End Date
Machakos County 2018-2022 CIDP	A first World County with high quality life to all citizens in a clean and secure environment	To transform livelihoods through speedy, efficient, inclusive and sustainable development	07 Jun 2020

Below the table is a section titled 'Key Results Areas (KRA)' with three sub-sections:

- KRA 1: Electricity Distribution and Regulation**
 - Objective 1: To connect primary schools with electricity
- KRA 2: Access to affordable quality healthcare**
 - Objective 1: To increase access to quality health services
- KRA 3: Access to quality education**
 - Objective 1: To provide bursaries to bright and needy students for increased access and retention

Interface showing how to add strategic objectives for each Key Result Area in the software:

Project Monitoring:

The system facilitates collection and analysis of data relating to the implementation of projects to determine the following:

- ❖ % Progress
- ❖ Project Status (Pending, In-progress, Behind Schedule/Overdue, Completed)
- ❖ Budget/Expenditure/% Utilization/ Pending Bills
- ❖ Deliverables/Outputs
- ❖ Performance of project teams

3. Post-Implementation

Project Evaluation (Process/Outcome evaluation)

The system has inbuilt form builders and analytics that facilitates designing of forms (questionnaires/checklists), data collection, analysis and production of various charts for reporting. Therefore, the system conducts baseline surveys on indicators and evaluations to determine effectiveness of projects.
